CURRICULUM VITAE

ALI OBEID

Born: *05.01.1985*

Citizenship: *Naturalised German*

Marital status: *Single*

Email: *ali@obeid.ai*

Twitter: *@AliObeid_*

EXPERIENCE

2018 - **Senior Consultant/ Data Scientist,** PricewaterhouseCoopers (PwC)

Projects:

• Trained and validated Probability of Default and Loss Given Default A-IRB models for a major international bank. Special focus on data quality, statistical consistency, and accuracy.

• Applied cutting-edge machine learning algorithms to detect variable interactions and non-linearities to increase the sophistication and accuracy of a classical statistical model, while keeping the transparency and interpretability to meet regulatory and maintainability requirements

• Led teams of client's employees in data quality activities as a preparation for risk model training for a major Scandinavian bank. Trained and tested regulatory IRB and challenger models

• Unsupervised clustering of data from a manufacturing client with the aim to optimise logistics and global operations

• Strategy and value growth support project for a client from the chemical industry. I coducted a multivariate analysis of operational data to define the a probabilistic and well-calibrated growth formula that determined the most important KPIs

2016 - 2018 **Consultant/ Data Scientist,** EXXETA AG

Projects:

• Built and benchmarked various machine learning scoring model for retail portfolios (logistic regression, neural nets and gradient boosted trees)
• Risk Data Aggregation projects (BCBS239)
• Data Quality and Automated testing
• AML and Fraud Detection

2013 - 2016 **Businesses Development Manager,** Frankfurt International Consulting GmbH

This was a part-time position in a start-up consulting company. Main activities were:

• Supported European SMEs to expand operation into Arabic- and Russian-speaking countries.
• Evaluated patents and technology transfer markets.
• Represented the company in business conferences and forums.

EDUCATION

2015 - 2016 **Master of Business Administration** (M.B.A), Frankfurt School of Finance & Management

Consultancy Project for **Lufthansa Technik AG**: The Project's aim was to optimise the airline's internal Business Process Management system. We used a multivairate regression model to obtain cost predictability, and formulated improvements recommendations focused data strategy.

2010 - 2015 **B.Sc. Physics,** Goethe University Frankfurt

• Bachelor thesis on quantum gravity: "Investigation on Unparticle Correction to Sub-millimeter Gravity"

• Secondary Subjects: IT and Electronics

Other activities: Physics exhibition "Weltmaschine" about the Large Hadron Collider. My task was to introduce experiments related to particle physics to public audience.

2009 - 2010 **German Language Course,** Goethe University of Frankfurt

2005 - 2008 **Physics,** Belarusian State University, Minsk,

• Research: *Course work on quantum field theory and Muon-pair production as an example*

2004 - 2005 **Russian Language Course,** Kharkiv Polytechnic Institute, Ukraine

1997 - 2003 **Abi Thar high School**, (Scientific focus). Masyaf, Syria

SOFTWARE SKILLS

Python (Pandas, Sklearn, Tensorflow, Torch), SQL (MS SQL Server, Oracle Developer), SAS, Mathematica, LaTeX, MS Access, VBA

LANGUAGES

Spoken and written fluency in **English**, **German**, **Arabic** and **Russian** (University Competition Winner).

Memberships

2014 - **Akaflieg Frankfurt:** Gliding Club, akaflieg-frankfurt.de

OTHER INTERESTS

Theoretical Physics, Design, History, Comparative Linguistics, Palaeontology, Photography, Gliding Sport, Sailing, Baroque Music

Frankfurt am Main, 15.01.2020
