CURRICULUM VITAE

ALI OBEID

Born: *05.01.1985*

Citizenship: *Naturalised German*

Marital status: *Single*

Email: *ali@obeid.ai*

Twitter: *@AliObeid_*

EXPERIENCE

2018 - **Senior Consultant/ Data Scientist,** PricewaterhouseCoopers (PwC)

Projects:

• Trained and validated Probability of Default and Loss Given Default A-IRB models for a major international bank. Special focus on data quality, statistical consistency, and accuracy.

• Applied cutting-edge machine learning algorithms to detect variable interactions and non-linearities to increase the sophistication and accuracy of a classical statistical model, while keeping the transparency and interpretability to meet regulatory and maintainability requirements

• Led teams of client's employees in data quality activities as a preparation for risk model training for a major Scandinavian bank. Trained and tested regulatory IRB and challenger models

• Unsupervised clustering of data from a manufacturing client with the aim to optimise logistics and global operations

• Strategy and value growth support project for a client from the chemical industry. I coducted a multivariate analysis of operational data to define the a probabilistic and well-calibrated growth formula that determined the most important KPIs

2016 - 2018 **Consultant/ Data Scientist,** EXXETA AG

Projects:

• Built and benchmarked various machine learning scoring model for retail portfolios (logistic regression, neural nets and gradient boosted trees)
• Risk Data Aggregation projects (BCBS239)
• Data Quality and Automated testing
• AML and Fraud Detection

2013 - 2016 **Businesses Development Manager,** Frankfurt International Consulting GmbH

This was a part-time position in a start-up consulting company. Main activities were:

• Supported European SMEs to expand operation into Arabic- and Russian-speaking countries.
• Evaluated patents and technology transfer markets.
• Represented the company in business conferences and forums.

EDUCATION

2015 - 2016 **Master of Business Administration** (M.B.A), Frankfurt School of Finance & Management

Consultancy Project for **Lufthansa Technik AG**: The Project's aim was to optimise the airline's internal Business Process Management system. We used a multivairate regression model to obtain cost predictability, and formulated improvements recommendations focused data strategy.

2010 - 2015 **B.Sc. Physics,** Goethe University Frankfurt

• Bachelor thesis on quantum gravity: "Investigation on Unparticle Correction to Sub-millimeter Gravity"

• Secondary Subjects: IT and Electronics

Other activities: Physics exhibition "Weltmaschine" about the Large Hadron Collider. My task was to introduce experiments related to particle physics to public audience.

2009 - 2010 **German Language Course,** Goethe University of Frankfurt

2005 - 2008 **Physics,** Belarusian State University, Minsk,

• Research: *Course work on quantum field theory and Muon-pair production as an example*

2004 - 2005 **Russian Language Course,** Kharkiv Polytechnic Institute, Ukraine

1997 - 2003 **Abi Thar high School**, (Scientific focus). Masyaf, Syria

SOFTWARE SKILLS

Python (Pandas, Sklearn, Tensorflow, Torch), SQL (MS SQL Server, Oracle Developer),Git, Docker, Bash, SAS, Mathematica, LaTeX, MS Access, VBA

LANGUAGES

Spoken and written fluency in **English**, **German**, **Arabic** and **Russian** (University Competition Winner).

Memberships

2014 - **Akaflieg Frankfurt:** Gliding Club, akaflieg-frankfurt.de

OTHER INTERESTS

Theoretical Physics, Design, History, Comparative Linguistics, Palaeontology, Photography, Gliding Sport, Sailing, Baroque Music

Frankfurt am Main, 15.01.2020
